The new stylish goggle by ProChoice

▶ ProChoice 8800 Series Goggles

SAFE AS.

The 8800 Series Protective Goggles are a new generation in light-weight, low profile enclosed eye protection.

The soft, close fitting thermoplastic, flexifit frame ensures maximum seal and comfort, with improved thermal stability in hot environments.

The ProChoice design incorporates indirect venting to prevent splash leakage into the protected area, while permitting fog-free performance. These goggles are also black – a much better option for dirty work environments.

The 8800 series comes with 99.9% UV resistant, hardened, anti-scratch, anti-fog, 2mm polycarbonate lens in clear or silver finish.

Technical Specifications

Specifications

Approvals: AS/NZS
ID No. 4010 Certification

AS/NZS 1337 ID No 4010
Australian/New Zealand Standards

Materials

TPV (thermoplastic vulcanizates) frame
medium impact
Anti-scratch/ anti fog lens

Product Code

Clear - 8800
Silver - 8808

Features and Benefits

Light Weight, Low Profile	At less than 68 grams, the ultra light weight design and TPV frame with in-built vents offers improved thermal stability in hot work environments and offers comfort during extended periods of wear
TPV Frame	TPV has a good resistance to the effects of ozone, very high UV protection as well as a good protection from a wide range of chemicals.
Medium Impact Lens	Durable 2mm polycarbonate lenses are robust, strong and suitable for indoor (clear) and outdoor use. Anti-scratch lens coating improves longevity of lens in dust environments
99.9% UV Protection	Approved to AS/NZS 1337 ensures consistent quality and performance

Care and Maintenance

- If the lens becomes scratched or pitted it should be replaced.
- Avoid exposure or contact of the lens with vapour or liquids which may cause surface crazing and reduce the impact resistance.
- Inspect and clean the goggles regularly and replace if broken or damaged.
- Thoroughly clean all surfaces with lens cleaner.
- Do not clean goggles with solvents. Air dry or pat dry with clean, soft cloth or tissue.

Industry Applications

There are many industries where ProChoice 8800 Series Goggles would be a welcome asset:

- Mining
- Engineering
- Manufacturing
- Wood Working
- Construction
- Fabrication
- Automotive
- Cleaning and Industrial

Complementary ProChoice Safety Products include:

DOWP

Provek Disposable Coveralls

- Lightweight, soft with excellent strength and good opacity
- Breathability to reduce moisture build up
- Water vapour permeable and water repellent
- Excellent barrier to dust and broad range of chemicals
- Convenient two way zipper

EMVIP

Viper Earmuffs

- Class 5, SLC₉₀ 26dB
- General purpose use
- Hearing protection for noise levels to 110dB(A) and solid, lightweight ear cup construction
- High quality ear cushions
- Low clamping force applies minimum pressure while maintaining a tight, snug seal

LC100

Lens Clean Wipes

- Pre-moistened
- Non scratch, anti-fog
- Also safe for LCD monitors & camera lenses

SS125

Sunscreen 125mL Tube

- SPF 30+ with moisturising Vitamin E
- 3 hours water resistant
- Flip top tube

LB12

Lip Balm 12gm Tube

- SPF 30+ with moisturising Vitamin E
- 4 hours water resistant
- Twist up stick
